Work Experience

Qualysoft | Bitdefender

20 apr 2024 - present

Software Developer on an e-commerce checkout project.

OSF Digital

06 apr 2023 - 19 apr 2024

Working as an Intermediate React Developer. Focused on developing UI side for a project (NDA-closed).

Wolf Digital Media

25 aug 2020 - 04 apr 2023

Started as an Intern Web developer and employed after the approval of my skills. Upgrading to the Web Team Leader position after 6 months, managing the web team for the next 2 years. Front-end for 2.5 years and full-stack for 1.5 years

Personal Profile

Team Lead and Fullstack Developer mastering Frontend skills with React/Next and Vue. Backend with NodeJS + Express. DBs: MySQL, Postgres and Firebase. CMSs: Strapi, Wordpress or custom built.

Soft Skills

- Team Leader for a small web development team
- A pretty good english level, written and spoken (demonstrated by speaking with different clients and colleagues)
- Hard and continuous learner, taking courses whenever the time allows it.
- Attention to details
- A perfectionist (that may be either a bad thing or a good thing)

Education

University of Bucharest

Bachelor's Degree in Informatics

Professional Skills

Coding Languages:

HTML/CSS (SCSS), Javascript (Typescript)

Frameworks & Tools:

Vue/NuxtJS, React/NextJS, NodeJS (Express), MySQL, Postgres, Firebase/Firestore, Redux (+Saga), NPM, Git, Jira/Trello (Design: Figma, Adobe XD, Photoshop)

Projects

Aurus

<https://aurus.io/>

A web/mobile app for tokenizing precious metals. It has a landing page for the presentation website, a CMS built with Strapi for content management with Articles (on the news page), a CRUD coupon system and a backend for the payment gateway, all of these hosted on multiple Ubuntu VPSs.

Stack used:

- NextJS
- Typescript
- Postgres
- Vue
- Node (Express)

Aurus is a project from which i learned Typescript and Next.

Ajusto

<https://ajusto.ro/>

An ENGIE Romania eCommerce project for housing needs, built on Wordpress.

Features:

- Accounts, Roles and Permissions.
- Custom Theme
- Products, Categories, Locations and Filters.
- Custom checkout and cart.

While i can not say much about this project (because i'm not allowed to), it meant a lot to me because i learned PHP and it gave me a boost in my backend journey.

And much more.
